Pinehurst/Beverly Park Neighborhood Association

September 2016

Chair's Message:

It seems so long since we have had a meeting. I really hope you had a fantastic summer. I want to thank all of the volunteers that we have. Everyone does such a great job. But we could use more help, you can never have enough volunteers. We want our neighborhood to be the best it can be. So please come to our meeting and see what we do, bring your ideas and maybe you will find something you are interested in doing. All of us want to keep improving our neighborhood. We have different speakers every month and would like to know what your interests are. So mark your calendar for the 27th and give us your ideas.

Have you heard?

Howarth Park Beach is OPEN again! YAAAA! I have been there and it is so awesome. They did such a great job renovating the beach. I took pictures and sent them to my kids and they thought we were at Ocean Shores. That is our favorite vacation place. You need to go check it out, it is so relaxing. Kids and dogs also have such a fun time digging in the sand and running on the beach. It's also a great picnic spot!

September is National Preparedness Month!

Sponsored by FEMA, National Preparedness Month aims to educate and empower Americans to prepare for and respond to all types of emergencies. This year's theme is "Don't Wait, Communicate. Make Your Emergency Plan Today!" Staying connected with your community and communicating is one very important step in preparing for disasters.

Visit www.Ready.gov for resources, information, checklists and more to help you prepare!

Although National Preparedness Month ends this month, it's never too late to set up a plan and compile a disaster supply kit in case of an emergency. Consider the following questions when making a plan:

- How will my family/household get [emergency alerts and warnings](#)?
- How will my family/household get to safe locations for relevant emergencies?
- How will my family/household get in touch if cell phone, internet, or landline doesn't work?
- How will I let loved ones know I am safe?
- How will family/household get to a meeting place after the emergency?

A disaster supplies kit is simply a collection of basic items your household may need in the event of an emergency.

- Try to assemble your kit well in advance of an emergency. You may have to evacuate at a moment's notice and take essentials with you. You will probably not have time to search for the supplies you need or shop for them.
- You may need to survive on your own after an emergency. This means having your own [food](#), [water](#) and other [supplies](#) in sufficient quantity to last for at least 72 hours. Local officials and relief workers will be on the scene after a disaster but they cannot reach everyone immediately. You could get help in hours or it might take days.
- Additionally, basic services such as electricity, gas, water, sewage treatment and telephones may be cut off for days or even a week, or longer. Your supplies kit should contain items to help you manage during these outages.
